

Vicus Tuscus

In an untouched ecosystem the culture of beauty and its ancient secrets. A living laboratory that we want to reveal.

In Imperial Rome, Vicus Tuscus, today Via San Teodoro, was the name of the Etruscan neighbourhood close to the Forum in the Velabrum. Described as the street of the perfume makers, owing to its Etruscan medical and cosmetic workshops and laboratories. Today, thanks to a deep research in the field of biological agricultural crops, Vicus Tuscus offers highly original cosmetic products.

Nature is our only teacher and law! Vicus Tuscus: ancient secrets healthy beauty

Today, in San Gimignano in Tuscany, we rediscover the mysterious ability to interpret nature from the ancient Etruscan perfumers that were the first to identify the various properties of the thermal clays and of a many flowers, bushes and roots, using long procedures to capture their benefits and fragrances.

The artisan company Vicus Tuscus, operates in the heart of Tuscany and has devised a unique line of cosmetics formulated exclusively using fresh extracts from both wild and cultivated plants and flowers (in the latter case, only using organic, biodynamic and nutraceutical methods).

These essences are used fresh in synergy with valuable raw materials excellence of this area such as extra virgin olive oil, grapes, saffron and many more, always come from our hills of Tuscany pursuing the philosophy Km. Zero.

Indeed, Vicus Tuscus lives and works in harmony with the calm and long-standing succession of the seasons, waiting patiently during the long winters the arrival of spring with its explosion of perfumes and fragrances, then, waits the

autumn to harvest the fruits at top richness of their properties donated by the warm Mediterranean summer sun.

For this reason the number and availability of Vicus Tuscus preparations are limited and related to the seasonality of flowers, herbs and plants, which valuable properties were revealed by the ancient traditions of this our ancient Toscana.

Vicus Tuscus, inspired by a deep love for Mother Earth in its broadest sense, naturalistic and cultural, offers natural cosmetics, certified organic are indicated with stamp **PureBIO** and do not contain silicones, petrolatum, parabens and are not tested on animals.

Our organic certification are: IMC (Mediterranean Certification Institute), BIOAGRICERT and ICEA.
